When our daughter Mya was diagnosed with cancer at 3 months old, our community came together and supported our family through the most difficult time of our lives. Mya ultimately became an angel at 19 months old. We are on a mission to remember Mya and help other families going through difficult times. The Mya J. Corigliano Foundation was started to help families of children battling cancer and other life-threatening illnesses in Central New York!

We are teeing off for our 6th annual golf tournament, please support our cause so we can provide help, hope and stability to others!
